### Wireframe

The wireframe depicts the homepage of the Daisy Garden website. At the top left is a logo consisting of a square with an 'X' inside. To its right is the site name "Daisy Garden" in a bold, sans-serif font. Below the logo is a placeholder text "dummy text dummy text". On the far right of the header is a grey button labeled "Joining Club!" with a pencil icon, and next to it are icons for a pen and a magnifying glass.

The header navigation bar includes links for HOME, SKIN, HAIR, MAKEUP, GALLERY, ABOUT US, CONTACT US, and SITEMAP. Below the navigation is a breadcrumb trail: "You are here : [Home](#)".

The main content area features a heading "Recently added" followed by a grid of six article cards. Each card has a placeholder image with an 'X' and is labeled "Category Link" in blue. The article titles are "Article Title dummy text", and each card contains three lines of placeholder text: "data dummy text 2020 | 0 comments | 0 Likes" and "description dummy text description".

At the bottom of the grid, there are navigation buttons for "Previous", page numbers "1", "2", "3", and "Next".

The footer of the page contains the copyright notice "@ 2020 Daisy Garden".

### Wireframe

The wireframe illustrates a website layout for 'Daisy Garden'. At the top, there is a header with a logo (a square with an 'X'), the site name 'Daisy Garden', a placeholder text 'dummy text dummy text', and a navigation bar with links: HOME, SKIN, HAIR, MAKEUP, GALLERY, ABOUT US, CONTACT US, and SITEMAP. To the right of the navigation are buttons for 'Joining Club!', a pencil icon, and a magnifying glass icon.

The main content area features a breadcrumb navigation 'You are here : Home'. Below it, a section titled 'Recently added' contains two large placeholder boxes, each with a 'Category Link' and placeholder text for article titles and descriptions.

The central part of the page is a registration form:

- A 'Join Club' button with a close icon.
- Input fields for 'Your Name', 'Email', and 'Phone Number'.
- A 'Gender' section with radio buttons for 'Female' and 'Male'.
- A 'Date of Birth' section with dropdown menus for 'Day', 'Month', and 'Year'.
- An 'Experience' input field.
- A checkbox labeled 'Send an email with Recently added posts.'
- A large 'join' button.
- Below the form, there are four smaller placeholder boxes, each with a 'Category Link' and placeholder text for article titles and descriptions.

At the bottom, a footer contains the text '@ 2020 Daisy Garden'.

Page3: Customize

Print Screen

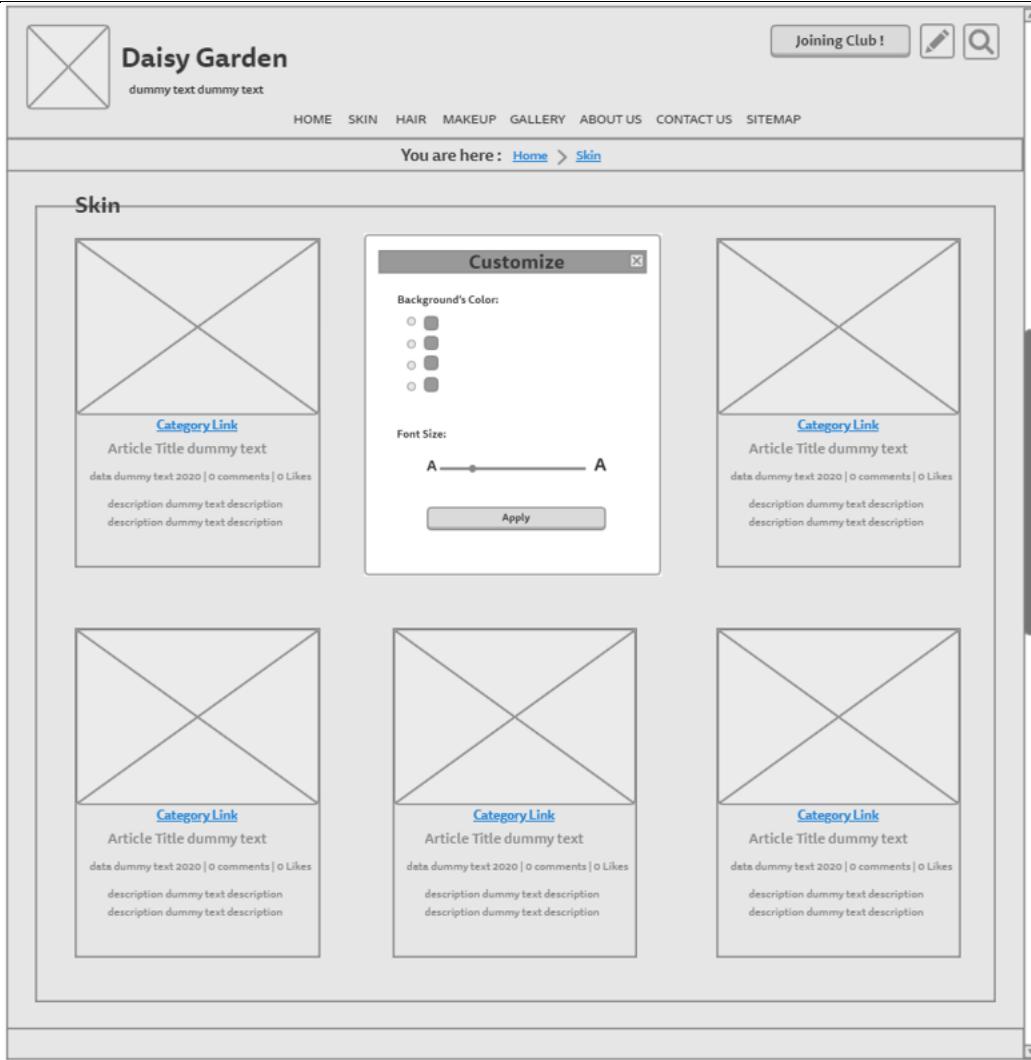

The screenshot shows a website for "Daisy Garden" beauty blog. A "Customize" modal window is open in the center. The modal has a green header with the word "Customize". Inside, there are sections for "Background's Color:" with four color options (pink, light green, light blue, yellow) and "Font Size:" with a slider from "A" to "A". Below these are "Apply" and "Cancel" buttons. The main content area features three cards for "Recently added" recipes:

**ABOUT US**

**About Daisy Garden Beauty**

*The idea of a beauty blog arose out of personal experience in successive attempts to create a care routine that is often ineffective and inapplicable for the long-term. Excessive social media ads and current beauty standards are among the most reasons that mislead the girls from knowing the starting point. Besides passing on the idea that beauty is dependent on money abundance, which in turn prompts girls to waste money buying products that do not suit them, and thus the frustration is rising.*

*The current blog is built on a revolution against beauty idealism and a deep belief in the uniqueness of every girl's beauty. Self-Love and confidence are a demand reflected in self-care, how you define beauty, and therefore the angle from which you see yourself. Then we decided to create a blog Daisy Garden Beauty to help people who interested in beauty in ways that suit different groups.*

### Coconut oil mask

[Hair](#) 20 october , 2020

**Coconut oil has become well known for its many health-promoting benefits, including better brain function, improved cholesterol levels, and more. It's also often used on the skin as a moisturizer and makeup remover. Due to its unique chemical structure, coconut oil may also benefit your hair. And one of the best ways to nourish your hair with coconut oil is by using a hair mask. Here's a look at the benefits of using a coconut oil hair mask. If you're interested in some simple DIY coconut oil hair mask recipes, we've got those for you, too.**

**How can a coconut oil hair mask help your hair?**  
Between chemical treatments, heat styling, and environmental exposure, your hair can become fragile and damaged over time. Fortunately, there are ways to help protect your hair, and research has shown that coconut oil may have certain properties that can help keep your hair healthy. In the same way that a facial mask can improve the overall health and appearance of your skin, a coconut oil hair mask can help boost the condition of your hair.

**So, what are the benefits of a coconut oil hair mask?**

Research shows that it may help:  
Reduce protein loss. Hair is protein, and consists of three layers. Coloring, blow-drying, styling, and other treatments can cause you to lose some of the protein that makes up your hair's cortex, the thickest layer of your hair. One 2017 review of studiesTrusted Source confirmed that coconut oil reduced protein loss when used as a pre- and post-wash grooming product. Penetrate the hair shaft. Coconut oil has a low molecular weight.Trusted Source This makes it easier for the oil to be absorbed into the hair shaft, compared to other types of oils. Replenish moisture. Because coconut oil does a better job at penetrating the hair shaft, it may also help protect your hair from dryness.

**Is it best suited to a particular hair type?**  
Most hair types can benefit from more moisture and less protein loss. However, a coconut oil hair mask might be especially beneficial if your hair tends to be dry, frizzy, prone to breaking curly. Keeping curls hydrated can be difficult because natural oils don't travel down the hair shaft easily.

**How to make a coconut oil hair mask?**  
You can make a simple coconut oil hair mask using just 2 tablespoons (tbsp.) of melted coconut oil. For best results, try to use organic, unrefined coconut oil. Protect your clothes from the oil by placing a towel around your neck. You can also apply the mask in the shower.

**Instructions:**

- 1- Use a spray bottle to wet your hair, then apply the warm coconut oil evenly over your damp hair.
- 2- Once you have coated all your hair, place a shower cap over your head.
- 3- keep it for 1-2 hours.
- 4- rinse out with lukewarm water, shampoo, and condition as normal.

### Coconut oil mask

[Hair](#) 20 october ,2020

Coconut oil has become well known for its many health-promoting benefits, including better brain function, improved cholesterol levels, and more. It's also often used on the skin as a moisturizer and makeup remover. Due to its unique chemical structure, coconut oil may also benefit your hair. And one of the best ways to nourish your hair with coconut oil is by using a hair mask. Here's a look at the benefits of using a coconut oil hair mask. If you're interested in some simple DIY coconut oil hair mask recipes, we've got those for you, too.

**How can a coconut oil hair mask help your hair?**  
Between chemical treatments, heat styling, and environmental exposure, your hair can become fragile and damaged over time. Fortunately, there are ways to help protect your hair, and research has shown that coconut oil may have certain properties that can help keep your hair healthy. In the same way that a facial mask can improve the overall health and appearance of your skin, a coconut oil hair mask can help boost the condition of your hair.

**So, what are the benefits of a coconut oil hair mask?**  
Research shows that it may help:  
Reduce protein loss. Hair is protein, and consists of three layers. Coloring, blow-drying, styling, and other treatments can cause you to lose some of the protein that makes up your hair's cortex, the thickest layer of your hair. One 2017 review of studies Trusted Source confirmed that coconut oil reduced protein loss when used as a pre- and post-wash grooming product. Penetrate the hair shaft. Coconut oil has a low molecular weight Trusted Source. This makes it easier for the oil to be absorbed into the hair shaft, compared to other types of oils. Replenish moisture. Because coconut oil does a better job at penetrating the hair shaft, it may also help protect your hair from dryness.

**Is it best suited to a particular hair type?**  
Most hair types can benefit from more moisture and less protein loss. However, a coconut oil hair mask might be especially beneficial if your hair tends to be: dry, frizzy, prone to breaking curly. Keeping curls hydrated can be difficult because natural oils don't travel down the hair shaft easily.

**How to make a coconut oil hair mask?**  
You can make a simple coconut oil hair mask using just 2 tablespoons (tbsp.) of melted coconut oil. For best results, try to use organic, unrefined coconut oil. Protect your clothes from the oil by placing a towel around your neck. You can also apply the mask in the shower.

**Instructions:**

- 1- Use a spray bottle to wet your hair, then apply the warm coconut oil evenly over your damp hair.
- 2- Once you have coated all your hair, place a shower cap over your head.
- 3- keep it for 1-2 hours.
- 4- rinse out with lukewarm water, shampoo, and condition as normal.

### Wireframe

The wireframe illustrates three different design iterations for a comment section on a website. The top version features a large central image, a 'Comments' section with a reply button, and a 'Leave a Comment' input field. The middle-left version shows a similar layout but with a different 'Leave a Comment' input field. The bottom-right version shows another variation of the layout.

**Creativity:**

Creativity 1: Favorite Icon

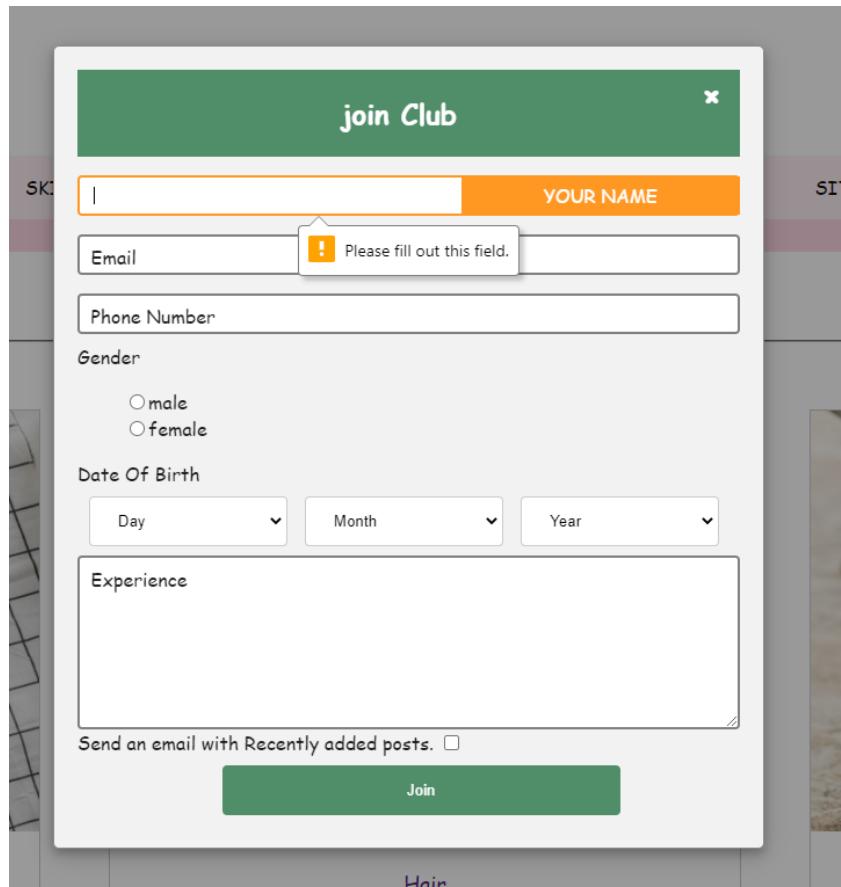

Creativity 2: Floating label

A modal dialog box titled 'join Club' is displayed. It contains fields for 'YOUR NAME', 'Email', and 'Phone Number'. Below these are 'Gender' options ('male' and 'female') and a 'Date Of Birth' section with dropdown menus for Day, Month, and Year. A large text area labeled 'Experience' is present. At the bottom, there is a checkbox for 'Send an email with Recently added posts.' and a green 'Join' button. The background of the dialog is white, while the buttons and text areas have a light orange or grey gradient.

---

Creativity 3: Required field

Creativity 4: Popup windows (Join club, customize)
